

25 subjects are needed to participate in data collection and evaluation of a prototype speech recognition system for TV listings retrieval

Requirement - each subject needs to be:

- A native English speaker
- Someone who watches TV!

What you will need to do during each session:

- Compose 20 TV queries
- Speak the queries into a computer
- Rank the computer's response

Each subject will be asked to complete one recording session per week for 20 weeks, between April and September 2002. Subjects will be paid £8 per session

Recordings will be made in the Department of Electronic, Electrical and Computing Engineering (Gisbert Kapp Building, Pritchatts Road)

Interested? Please email your details ASAP to:
